CYBERSECURITY TALENT FOR A BRIGHTER TOMORROW

WISEMAN CYBERSEC
BE WISE , BE SECURE

BUILDING A SAFER DIGITAL TOMORROW

ABOUT WISEMAN CYBERSEC

Wiseman CyberSec designs and delivers hands-on, role-aligned cybersecurity training for professionals and organizations, enabling them to design, implement, and manage security solutions across real-world enterprise environments. Our programs span offensive, defensive, IAM, and GRC and other domains, and are practical, customizable, and aligned with modern enterprise needs—developed in collaboration with globally recognized certification bodies.

VISION

To become a global leader in cybersecurity training and solutions, starting from India and securing the world.

MISSION

To build cybersecurity talent and security solutions that work—training people, strengthening organizations, securing the world.

GOALS

Empowering cybersecurity professionals and building smarter tools & cybersecurity solutions for a safer digital world.

TRAINING DELIVERY MODES

Choose the mode that fits your schedule, team goals, and desired outcomes. All formats emphasize tool-based learning, real scenarios, and practical implementation.

PUBLIC BATCHES

Regular instructor-led batches covering in-demand domains with interactive sessions and guided practice.

1-ON-1 TRAINING

Personalized training aligned to your role and career goals. Hands-on, tool-based learning delivered by industry professionals.

CORPORATE TRAINING

Tailored programs for organizations with focus on skill enhancement, compliance alignment, and practical implementation.

COLLEGE PARTNERSHIP PROGRAMS

Industry-integrated programs with Wiseman CyberLabs, workshops, guest lectures, and live hackathons to boost employability.

HOW TRAINING WORKS

Our approach is built for outcomes: you practice on real tools, follow job-role workflows, and leave with artifacts you can apply at work (checklists, playbooks, mini-projects, and lab exercises).

- Practical, tool-based learning (SOC, SIEM, Cloud, GRC, Pentest, IR)
- Guided labs and scenarios aligned to real-world incidents and audits
- Mentorship and career guidance for role targeting and skill gaps
- Optional access to Wiseman CyberLabs for hands-on practice

TRAINING SECTION

IDENTITY & ACCESS MANAGEMENT (IAM)

Secure Identities.
Enable Possibilities.

Build, manage, and secure modern identity ecosystems with hands-on, real-world training.

- CyberArk PAS Fundamentals
- CyberArk Advanced Hands-On
- SailPoint IdentityNow Training (IAM page) + SailPoint IdentityIQ Implementation (training list)
- Microsoft SC-300: Identity and Access Administrator
- Okta Identity Cloud Training + Okta (IAM) (training list)
- IAM Foundation To Advance

WHAT YOU'LL GAIN

- Practical skills on industry-leading tools
- Real-world implementation experience
- Stronger career opportunities in IAM and identity security
- Guidance from industry experts

COMPREHENSIVE TRAINING FOR A SAFER TOMORROW

Comprehensive training across offensive, defensive, cloud, privacy/compliance, and emerging technology domains.

Learn Secure Lead

1. FOUNDATION & ESSENTIALS

Build your cybersecurity foundation

- Introduction to Cybersecurity (CC by ISC2)
- CompTIA Security+ Certification Training
- Cybersecurity for Beginners
- Fundamentals of Network Security
- Linux Security Essentials
- Windows Security & Hardening
- Introduction to Cyber Threats & Ethical Hacking

2. DEFENSIVE SECURITY (SOC / DFIR)

Detect, respond and stay ahead

- Security Information & Event Management (SIEM) Training (Splunk, QRadar, ELK)
- Security Operations Center (SOC) Analyst Training
- SOC L1, L2, L3 & SOC Manager
- Threat Intelligence & Hunting
- Incident Response & Digital Forensics
- Endpoint Detection & Response (EDR) Mastery
- Log Analysis & Threat Detection
- Defensive Cybersecurity Strategies
- Cyber Threat Intelligence (CTI) & MITRE ATT&CK Framework
- Advanced Blue Team Operations

3. CLOUD SECURITY

Secure modern infrastructure

- Certified Cloud Security Professional (CCSP)
- AWS Certified Security - Specialty
- Azure Security Engineer Certification
- Google Cloud Security Training
- Cloud Penetration Testing
- DevSecOps & Secure CI/CD Pipelines
- Container Security (Docker, Kubernetes)
- Zero Trust Architecture & Cloud Security Best Practices

4. OFFENSIVE SECURITY (VAPT)

Think like an attacker. Build stronger defences.

- Certified Ethical Hacker (CEH)
- Offensive Security Certified Professional (OSCP)
- Advanced Web Application Penetration Testing
- Network Penetration Testing
- Mobile Application Penetration Testing
- API Security Testing
- Wireless Network Penetration Testing
- Reverse Engineering & Malware Analysis
- Red Team Operations & Adversary Simulation
- Bug Bounty Hunting & Exploit Development

SPECIALISED TRAINING FOR REAL-WORLD IMPACT

Learn Secure Lead

Build in-demand skills across governance, privacy, emerging technologies and more.

5. GRC, PRIVACY & COMPLIANCE

Govern with confidence. Stay compliant.

- ISO/IEC 27001 Lead Auditor (LA)
- ISO/IEC 27001 Lead Implementer (LI)
- ISO/IEC 31000 Risk Management
- PCI DSS Compliance & Implementation
- COBIT Governance Framework
- CRISC (IT Risk Management)
- CISA (Information Systems Audit)
- Data Protection & Privacy (DPDP Act)
- GDPR Compliance & Data Privacy
- DPO (Data Protection Officer) Training
- Audit, Risk & Compliance (ARC)
- IT Governance & Risk Management

6. EMERGING TECHNOLOGIES & OTHERS

Stay ahead. Build what's next.

- ISO/IEC 42001 – AI Management Systems
- AI Security & Governance
- Generative AI for Security Professionals
- Security for AI/ML Systems
- Cloud Security Alliance – CCSK
- Cloud Auditing Knowledge – CCAK
- Internet of Things (IoT) Security
- Operational Technology (OT) Security
- ICS/SCADA Security
- Mobile & Application Security
- Blockchain Security Fundamentals
- And more specialized programs...

WISEMAN CYBERLABS

PRACTICE. EXPERIMENT. BUILD REAL SKILLS.

Optional access to Wiseman CyberLabs for hands-on practice with real tools, real scenarios, and a safe learning environment.

- Real-world lab environment
- Industry-standard tools
- Guided exercises and scenarios
- Build portfolio-ready projects

> "Bridging the gap between knowledge and real-world expertise."
